

AGE VERIFICATION/AGE GATE POP-UP

For Magento 1

Overview

Age Verification / Age Gate Pop-Up extension equip websites to carry out adult verification check on the visitors. The extension locks the web-store with a Pop-Up screen asking User to verify their age before allowing them to browse the website. Underage users are unable to browse the website, while Users who have given consent of appropriate age could browse the website until the expiration of the pre-set Cookie defined by the Website Administrator. The extension also provides flexibility for the Website Administrator to select pages where Pop-Up is required. The content of the Agree and Disagree Pop-Up buttons could be changed and managed from the Magento Back-end system.

Simple 5 minutes setup, and your Age Verification pop-up is ready to filter.

Follow below steps to have this extension setup on your store:

1. Download and install the extension
2. Edit static block content of "vsourz-age-verification" and "vsourz-age-verification-disagree" as per the requirement
3. Define system setting variables from System >> Configuration >> Age Gate Pop-Up

You can learn more about the Extension configuration from **How to Use?** section below
