

## Multiple Wishlist

### 1. Overview

---

Multiple Wishlist helps customer to save their preferred items, select and organize in a group. Various Wishlist categories assist shoppers manage and access their Wishlist more quickly and easily.

You can manage multiple items in the Wishlist in an organized manner. This module will help the customers to create different Wishlist and add different products into the Wishlist.

Default Magento provide single Wishlist with limited items. Searching the saved items becomes difficult. Using this extension, the customer can easily search the Items.

## 2. Features

---

- Customers can add different product in new or existing Wishlist.
- Searching particular item from the Wishlist becomes more convenient.
- Can create multiple Wishlist as per the products.
- Products can be added to Wishlist rapidly from any page
- Admin can manage the visibility of multiple Wishlist.
- Customer can create more than one Wishlist.
- Products can be moved from Add to Cart page to Multiple Wishlist page.
- Wishlist can be shared through different social media.
